The Declaration of Independence is generally regarded as one of the most famous documents in the history of the world. On June 10, 1776, the Continental Congress appointed a committee, consisting of Thomas Jefferson, Benjamin Franklin, John Adams, Roger Sherman and Robert R. Livingston to draft a Declaration of Independence.

Jefferson wrote out a rough draft of the Declaration, which was carefully revised by the committee and presented to Congress for adoption. After some further slight revisions by that body, it was adopted on July 4, 1776, at Philadelphia.

The parchment with the original signatures was deposited with the Department of State when the government was organized in 1789.

The original Declaration of Independence was transferred from the Department of State by direction of the late President Warren G. Harding to the Library of Congress. The Declaration was moved from the Library of Congress in 1952 at the direction of Congress and transferred to the National Archives Building where it rests today.

# THE DECLARATION OF INDEPENDENCE

## MADE BY THE ORIGINAL THIRTEEN STATES IN CONGRESS AT PHILADELPHIA

UNANIMOUSLY ADOPTED JULY 4, 1776

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed, by their Creator, with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and institute new government, laying its foundation on such principles, and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established, should not be changed for light and transient causes; and accordingly all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute depotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these Colonies, and such is now the necessity which constrains them to alter their former

systems of government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world.

He has refused his assent to laws, the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people should relinquish the right of representation in the legislature, a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the State remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migrations hither; and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of and superior to the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these States:

For cutting off our trade with all parts of the world:

For imposing taxes on us without our consent:

For depriving us, in many cases, of the benefits of trial by jury:

For transporting us beyond seas to be tried for pretended offenses:

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies:

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments:

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation, and tyranny, already begun, with circumstances of cruelty and perfidy, scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these oppressions we have petitioned for redress in the most humble terms: our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them, from time to time, of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the Representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do in the name, and by authority of the good people of these Colonies, solemnly publish and declare, That these United Colonies, are, and of right ought to be, *free and independent States;* that they are absolved from all allegiance to the British crown, and that all political connexion between them and the State of Great Britain, is, and ought to be, totally dissolved; and that as *free and independent States,* they have full power to levy war, conclude peace, contract alliances, establish commerce, and to do all other acts and things which *independent* States, may of right do. And for the support of this declaration, with a firm

reliance on the protection of Divine Providence we mutually pledge to each other our lives, our fortunes, and our sacred honour.

The United States Constitution is the oldest federal constitution in existence. It was so well framed that it has served as the basis for this government for a century and a half. Only once has it been seriously endangered, this being during the Civil War. Many of its principles have been adopted by other countries.

The Constitution was the outgrowth of a convention of delegates from the different states that met in Philadelphia in May, 1787, Rhode Island not being represented. George Washington presided over the convention, which lasted from May to September.

The Constitution was then submitted to the then existing states for ratification, with a provision that it should become effective when ratified by nine states. New Hampshire was the ninth state to ratify, June 21, 1788, and the Constitution went into effect in 1789.

The states ratified the Constitution in the following order: Delaware, Dec. 7; Pennsylvania, Dec. 12, and New Jersey, Dec. 18, 1787; Georgia, Jan. 2; Connecticut, Jan. 9; Massachusetts, Feb. 6; Maryland, Apr. 28; South Carolina, May 23; New Hampshire, June 21; Virginia, June 26, and New York, July 26, 1788; North Carolina, Nov. 21, 1789, and Rhode Island, May 29, 1790.

# PART FIRST

## BILL OF RIGHTS.

ARTICLE 1st. All men are born equally free and independent: Therefore, all government, of right, originates from the people, is founded in consent, and instituted for the general good.

Equality of men; origin and object of government.
liii, 212. lxv, 113.

[ART.] 2d. All men have certain natural,essential, and inherent rights — among which are, the enjoying and defending life and liberty; acquiring, possessing, and protecting, property; and, in a word, of seeking and obtaining happiness.

Natural rights.
liii, 9, 398.
liv, 117,590.
lxv, 103. lxvii, 59.
lxxii, 95.
lxxiii, 33, 34.
lxxv, 31.
lxxvii, 581.

[ART.] 3d. When men enter into a state of society, they surrender up some of their natural rights to that society, in order to ensure the protection of others; and, without such an equivalent, the surrender is void.

Society, its organization and purposes.
liii, 9.
lxxi, 555.

[ART.] 4th. Among the natural rights, some are, in their very nature unalienable, because no equivalent can be given or received for them. Of this kind are the Rights of Conscience.

Rights of conscience unalienable
liii, 9. lix, 225.

[ART.] 5th. Every individual has a natural and unalienable right to worship God according to the dictates of his own conscience, and reason; and no subject shall be hurt, molested, or restrained, in his person, liberty, or estate, for worshipping God in the manner and season most agreeable to the dictates of his own conscience; or for his religious profession, sentiments, or persuasion; provided he doth not disturb the public peace or disturb others in their religious worship.

Religious freedom recognized.
liii, 9. lviii, 240.
lix, 225. lxiv, 48.
lxix, 381.
lxxvi, 420.

[ART.] 6th. As morality and piety, rightly grounded on evangelical principles, will give the best and greatest security to government, and will lay, in the hearts of men, the strongest obligations to due subjection; and as the knowledge of these is most likely to be propagated through a society, by the institution of the public worship of the Deity, and of public instruction in morality and religion; therefore, to promote these important purposes, the people of this state have a right to empower,

Public worship of the Deity to be encouraged.
liii, 9. lxvi, 230.
lxxv, 424, 562.
lxxvi, 408.

and do hereby fully empower, the legislature, to authorize, from time to time, the several towns, parishes, bodies corporate, or religious societies, within this state, to make adequate provision, at their own expense, for the support and maintenance of public Protestant teachers of piety, religion, and morality:

Right of electing religious teachers. Sm., 1. liii, 9, 138. lvi, 508. lviii, 170. lxvi, 230.

*Provided notwithstanding,* that the several towns, parishes, bodies corporate, or religious societies, shall, at all times, have the exclusive right of electing their own public teachers, and of contracting with them for their support and maintenance. And no person, of any one particular religious sect or denomination, shall ever be compelled to pay towards the support of the teacher or teachers of another persuasion, sect, or denomination.

Free toleration. liii, 9.

And every denomination of Christians, demeaning themselves quietly, and as good subjects of the state, shall be equally under the protection of the law; And no subordination of any one sect or denomination to another, shall ever be established by law.

Existing contracts not affected.

And nothing herein shall be understood to affect any former contracts made for the support of the ministry; but all such contracts shall remain, and be in the same state as if this constitution had not been made.

State sovereignty. lxvi, 369.

[Art.] 7th. The people of this state have the sole and exclusive right of governing themselves as a free, sovereign, and independent state; and do, and forever hereafter shall, exercise and enjoy every power, jurisdiction, and right, pertaining thereto, which is not, or may not hereafter be, by them expressly delegated to the United States of America in congress assembled.

Accountability of magistrates and officers. lxvi, 369. lxvii, 49.

[Art.] 8th. All power residing originally in, and being derived from, the people, all the magistrates and officers of government are their substitutes and agents, and at all times accountable to them.

No hereditary office or place.

[Art.] 9th. No officer or place, whatsoever, in government, shall be hereditary — the abilities and integrity requisite in all, not being transmissible to posterity or relations.

Right of revolution. lii, 592. lxv, 113.

[ART.] 10th. Government being instituted for the common benefit, protection, and security, of the whole community, and not for the private interest or emolument of any one man, family, or class of men; therefore, when ever the ends of government are perverted, and public liberty manifestly endangered, and all other means of redress are ineffectual, the people may, and of right ought to reform the old, or establish a new government. The doctrine of nonresistance against arbitrary power, and oppression, is absurd, slavish, and destructive of the good and happiness of mankind.

Elections and elective franchise. lx, 385.

[ART.] 11th. All elections ought to be free, and every inhabitant of the state, having the proper qualifications, has equal right to elect, and be elected, into office; [but no person shall have the right to vote or be eligible to office under the constitution of this state who shall not be able to read the constitution in the English language and to write; *provided, however,* that this provision shall not apply to any person prevented by a physical disability from complying with its requisitions, nor to any person who now has the right to vote, nor to any person who shall be sixty years of age or upwards on the first day of January, A.D. 1904;]* [and *provided further* that no person shall have the right vote, or be eligible to office under the constitution of this state who shall have been convicted of treason, bribery, or any wilful violation of the election laws of this state, or of the United States; but the supreme court may, on notice to the attorney-general restore the privileges of an elector to any person who may have forfeited them by conviction of such offenses.]† [The general court shall have power to provide by law for voting by qualified voters who at the time of biennial or state elections; [or of the primary elections therefor,]** or of city elections are absent from the city or town of which they are inhabitants, or who by reason of physical disability are unable to vote in person, in the choice of any officer or officers to be elected or upon any question submitted at such election.]††

[Art.] 12th. Every member of the community has a right to be protected by it, in the enjoyment of his life, liberty, and property; he is therefore bound to contribute his share in the expense of such protection, and to yield his personal service when necessary, or an equivalent. But no part of a man's property shall be taken from him, or applied to public uses, without his own consent, or that of the representative body of the people. Nor are the inhabitants of this state controllable by any other laws than those to which they, or their representative body, have given their consent.

[Art.] 14th. [Art.] 15th. No subject shall be held to answer for any crime, or offense, until the same is fully and plainly, substantially and formally, described to him; or be compelled to accuse or furnish evidence against himself. And every subject shall have a right to produce all proofs that may be favorable to himself; to meet the witnesses against him face to face, and to be fully heard in his defense, by himself, and counsel. [Art.] 17th. In criminal prossecutions, the trial of facts, in the vicinity where they happened, is so essential to the security of the life, liberty, and estate, of the citizen, that no crime or offense ought to be tried in any other county than that in which it is committed; — except in cases of general insurrection in any particular county, when it shall appear to the judges of the superior court, that an impartial trial cannot be had in the county where the offense may be committed, and upon their report, the [legislature]* shall think proper to direct the trial in the nearest county in which an impartial trial can be obtained.

Penalties to be proportioned to offenses.
lxxx, 6.
True design of punishment.

[Art.] 18th. All penalties ought to be proportioned to the nature of the offense. No wise legislature will affix the same punishment to the crimes of theft, forgery, and the like, which they do to those of murder and treason. Where the same undistinguishing severity is exerted against all offenses, the people are led to forget the real distinction in the crimes themselves, and to commit the most flagrant with as little compunction as they do† the lightest [offenses]:‡ For the same reason a multitude of sanguinary laws is both impolitic and unjust. # A BRIEF HISTORY OF NEW HAMPSHIRE

Early historians record that in 1623, under the authority of an English land-grant, Captain John Mason, in conjunction with several others, sent David Thomson, a Scotchman, and Edward and Thomas Hilton, fish-merchants of London, with a number of other people in two divisions to establish a fishing colony in what is now New Hampshire, at the mouth of the Piscataqua River.

One of these divisions, under Thomson, settled near the river's mouth at a place they called Little Harbor or "Pannaway," now the town of Rye, where they erected salt-drying fish racks and a "factory" or stone house. The other division under the Hilton brothers set up their fishing stages on a neck of land eight miles above, which they called Northam, afterwards named Dover.

Nine years before that Captain John Smith of England and later of Virginia, sailing along the New England coast and inspired by the charm of our summer shores and the solitude of our countrysides, wrote back to his countrymen that:

> "Here should be no landlords to rack us with high rents, or extorted fines to consume us. Here every man may be a master of his own labor and land in a short time. The sea there is the strangest pond I ever saw. What sport doth yield a more pleasant content and less hurt or charge than angling with a hook, and crossing the sweet air from isle to isle over the silent streams of a calm sea?"

Thus the settlement of New Hampshire did not happen because those who came here were persecuted out of England. The occasion, which is one of the great events in the annals of the English people, was one planned with much care and earnestness by the English crown and the English parliament. Here James the first began a colonization project which not only provided ships and provisions, but free land bestowed with but one important condition, that it remain always subject to English sovereignty.

So it remained until the "War of the Revolution." Smith first named it "North Virginia" but King James later revised this into "New England." To the map was added the name Portsmouth, taken from the English town where Captain John Mason was commander of the fort, and the name New Hampshire is that of his own English county of Hampshire.

Captain Mason died in 1635, just before his proposed trip to the new country which he never saw. He had invested more than twenty-two thousand pounds in clearing the land, building houses, and preparing for its defense, — a considerable fortune for those days. By then Dover and Portsmouth had expanded into Hampton and Exeter, and its income from fishing was increased by that from trade in furs and timber.

Taking the idea from the English government, a community of

"towns" was erected, and this became a "royal province" in 1679 with John Cutt as president, with a population intended to be as nearly like England as it could be. The "royal province" continued until 1698 when it came under the jurisdiction of Massachusetts with Joseph Dudley as Governor. Thus it continued until 1741.

During that time England's throne had been ruled by William and Mary, Queen Anne, and George I, and New Hampshire was administered by no less than eight lieutenant governors. There had been much unrest in England and as a result, to New Hampshire's advantage, the Scotch settlers of Londonderry in Ireland had in 1719 sent many of their people here to form a "Scotch" colony in the new place they would call our own Londonderry.

Under King George II New Hampshire returned to its provincial status with a governor of its own, Benning Wentworth, who was its chief magistrate from 1741 to 1766.

During the first two decades of Governor Wentworth's term New Hampshire had been beset with Indian troubles. With little aid from England, then at war with its old-time enemy, France, the colonists undertook the sieges of Louisbourg, and helped to reduce Crown Point, and in the conquest of Canada. By the time of the signing of the Peace of Paris in 1762, and the end of the Indian fighting under the Rogers Rangers, the entire north country of New Hampshire was ready to be explored, surveyed, and populated.

Governor Wentworth who, as if in anticipation of this opportunity, seems to have been well prepared for it, had arranged the purchase for the sum of fifteen hundred pounds of the unauthenticated claims of Robert Mason, heir of Captain John Mason. This was done through a group of twelve influential citizens who called themselves the "Masonian Proprietors." Having done this, the governor kept the land "within the province."

Governor Wentworth, with all or most of the Masonian Proprietors as his councilors, then proceeded to grant towns to prospective settlers as equally as possible. In addition to the thirty-eight towns already granted, more than a hundred others followed after the year 1761. These towns contained lots available to more than thirty thousand families, many from the older towns in southern New Hampshire and Massachusetts, but many from other neighboring states. Some of these towns were located in Vermont, to be released later by a court order, which made the western shore of the Connecticut River the state boundary line.

While the new towns were occasionally given the names of the leading grantees, not a few of them bore the historic names of English royalty, frequently those of friends and relatives of Governor Wentworth and his own royal family, the Rockinghams, in England. Many of the beneficiaries were soldiers who had fought in the Indian wars, while a few were of Dutch origin, such as might settle from New York in New Hampshire.

The terms of the grants were simple. The Proprietors could convey only the soil, while the political rights and powers of government

came from the province. Provision was made that no land should be subject to taxation or assessment until improved by those holding the titles. Rights were reserved for land for roads, churches and schools, to be built within a definite period of time, for the use of ministers and in many cases for mill-rights. Fees were nominal, often only a shilling or an ear of corn a year. All tall pines should be saved for the King's navy.

Benning Wentworth died in 1770. He was succeeded by his nephew who later became Sir John Wentworth, the last of the royal governors. He is perhaps best known because of his purchase of a thirty-six mile tract of land on the shore of Lake Winnipesaukee where he established an estate known as Kingswood. It afterward became Wolfeborough.

Governor Sir John Wentworth's beneficial acts to the state included the building of roads, including one from Portsmouth to Kingswood; publishing the first accurate state map; organizing the State militia, a member of which was Major Benjamin Thompson of Concord who afterward became known as Count Rumford; his help in founding Dartmouth College; and the building of Wentworth House, now owned by the State. Loyal to the English crown, he embarked for Nova Scotia at the beginning of the Revolution, there to become its Lieutenant-governor until his death in 1820.

A pre-Revolution event occurring in New Hampshire was the removal in 1774, by a small party of patriots at New Castle, of the powder and guns at Fort William and Mary. Other Revolutionary events included New Hampshire's participation in the Battle of Bunker Hill at which nearly all the troops doing the actual fighting were said to have been from this State; the signing of the Declaration of Independence by New Hampshire's Josiah Bartlett, Matthew Thornton, and William Whipple; General John Stark's victory at the Battle of Bennington; and the success of Captain John Paul Jones at sea.

Just as it was the first to declare its independence and adopt its own constitution, New Hampshire was the ninth and deciding state in accepting the National Constitution as that of a republic, never to be known under any other form of government. New Hampshire's John Langdon was the first acting vice-president of the United States, and was President of the Senate when Washington was elected first president.

Many events have helped to individualize New Hampshire's unique history as the decades have followed each other down to the present time. Both Washington and Lafayette passed within our borders. Mesheck Weare was elected the first state "president." Morey's Connecticut River steam-boat preceded Fulton's by seventeen years. An American President, Franklin Pierce, and a Vice-president, Henry Wilson, were elected, both from New Hampshire. Daniel Webster won his famous Dartmouth College case before the Supreme Court. The first American public library was established at Peterborough. The world-recognized "Concord Coach" was made here, as was America's first cog-railroad to Mount Washington dating 1869.

Statesmen, educators, inventors, preachers, scientists, explorers, authors, industrialists, engineers, lawyers, diplomats, are all arrayed in the long line of notables New Hampshire claims as coming from her soil.

## GEOGRAPHICAL LOCATION

New Hampshire is situated the most northern of the thirteen original states and lies between latitude 42-40 and 45-18 north and longitude 70-37 and 72-37 west. It is about 180 miles long and 50 miles wide, although the extreme width is 93 miles.

It is bounded on the north by Quebec province in Canada, on the east by Maine and the Atlantic ocean, on the south by Massachusetts, and on the west by Vermont. The Connecticut River is the western boundary.

## "MOTHER OF RIVERS"

Geographies sometimes speak of the state as the "Mother of Rivers." Five of the great streams of New England originate in its granite hills. The Connecticut River rises in the northern part, and for nearly one hundred miles of its winding course hems the shores of the state with a "broad seam of silver." The Pemigewasset River starts in the Profile Lake in the Franconia mountains and joins the Winnipesaukee at Franklin to form the Merrimack, which at one time turned more spindles than any other river in the world. The Cocheco and Salmon Falls rivers join at Dover to form the Piscataqua. In addition, two of the principal rivers of Maine, the Androscoggin and the Saco, have their beginnings in northern New Hampshire.

New Hampshire has 1300 lakes or ponds and 40,000 miles of rivers and streams which provide year round fishing and recreation in scenic surroundings, as well as power for the State's many industries.

## "THE GRANITE STATE"

New Hampshire is commonly known as the Granite State, and of late years by some writers is called the Queen State — "Queen by right of her natural beauty; queen by her native hardy spirit; queen by her diversified industry; queen by reason of her motherhood of great men. She is enthroned on hills of granite, diademed with sparkling waters and sceptered with industry."

The state entertains annually over a million summer visitors who resort in the mountain, lake and seashore scenery, — in fact it has been estimated that a million automobiles cross our borders annually! The soil is suitable for fruits, flowers and vegetables. The forests of pine, spruce and hard wood add beauty to the landscape and wealth to the land.

The White Mountains are the natural feature which has the widest fame. New Hampshire bodies of water cover one hundred and fifteen thousand acres and vary from small ponds to Lake Winnipesaukee, which is twenty-two miles long and eight miles wide.

New Hampshire's publicly-owned aerial tramway, the first erected to a mountain top in North America, is located in Franconia Notch near The Old Man of the Mountain. Its cars have carried 2,000,000 passengers in their eight-minute ascent of the 2022 feet to the top.

No state grows apples of finer flavor than come from the hillsides of New Hampshire. Horticultural shows have no better exhibits than are presented from towns in the southern part of this state, where the orchards have been sprayed and treated by the latest scientific methods. Strawberries, blueberries, peaches and products of the garden are grown in great quantities and shipped hundreds of miles.

New Hampshire is also famous for her products made from the sap of the maple tree.

Dairying is a large business and in recent years the quality of the herds has increased tenfold. There are 5,779,840 acres of land in the state, 1,960,061 acres being in farm land, with the number of farms estimated at 16,554, according to the 1940 farm census. There were over two and one-half million acres of timber land, which contained over thirty billion feet of merchantable timber, but the disastrous hurricane of 1938 has sadly depleted the standing timber in New Hampshire's granite hills.

It is estimated that every year more than four million dollars is permanently invested in the purchase of land and the construction of buildings in the rural districts. Nearly every town has some summer visitors. Winnipesaukee shores are lined with cottages and hotels; Sunapee has a summer population of over five thousand, who enjoy its beauties.

The state has a seaboard of about eighteen miles. Hampton and Rye beaches have been famous summer resorts since the days Whittier pitched his "tent on the beach." The salt waves of the Atlantic lap the sometimes sandy, sometimes rocky coast into one continuous pleasure ground, where surf bathing and scenic beauty enchant the visitor. In the early fall of 1915 a disastrous fire at Hampton Beach destroyed many of the hotels and places of business there, but the resort has since been rebuilt from the ruins until it is larger and more attractive than ever. The recreational area at Hampton Beach has greatly improved the appearance of that part of the coast. The state maintains a large public bath house and a parking area there. The erection of a sea wall in 1934 not only improved the property along the coast, but was a necessary measure against coast erosion.

Among New Hampshire's all-year, all-season recreation attractions, none are more popular than its winter sports. Mount Washington is the highest mountain east of the Rockies and north of the Mason-Dixon Line. Its privately-owned cog railway was the first mountain climbing railway in the world.

New Hampshire has some of the finest ski terrain in the east where the sport may be enjoyed well into July and August. Its many lifts include the widely known Cranmore skimobile, operated all year, and Tuckerman, Cannon, Sunapee and Gilford slopes.

Portsmouth, the only sea city, has an historic past and a prosperous

present with its large navy yard. New Castle is a place of romance and aesthetic beauty and adventure. A large part of the Isles of Shoals in Portsmouth harbor belongs to New Hampshire, with their cottages and hotels. Lobster fishermen find the Isles of Shoals and the New Hampshire coast favorable areas for taking this famous sea food. The state highways are as fine as any state can boast of and are kept in excellent driving condition the year round. New Hampshire is open to visitors, from the coast to the mountains, twelve months in the year.

## FISH AND GAME

In 1865 New Hampshire joined the vanguard of American science by establishing a fish and game department, the first one of its kind in New England. Since that date, some eighty odd years ago, the efforts of this department have been devoted to the propagation and conservation of fish and game.

In modern times the cultivation of fish and the protection of wild life have demanded the application of scientific methods quite as much as any other element of our life. It is a known fact that while European countries have found vast resources in their shore fisheries, the United States is by no means able to rely on her coast fisheries, and has thus been obliged to develop her inland waters to meet the needs that otherwise could have been met only by importation from other countries. Moreover, while Europe's supply is bound to lessen in time to come, our supply will continue to increase.

Today, New Hampshire's Fish and Game Department employs a balanced team of trained wildlife men, fish culturists, and law enforcement officers to maintain and increase the available supplies of her native species under the pressure of vastly increased demand. To do so means that every one of her waters and every bit of cover must be contributing its full share to the state's crop. Research personnel are constantly exploring new avenues to increase natural productivity, while evaluating the results of current practices.

Since World War II, a program of modernization and expansion of fish rearing facilities has more than doubled the annual output available for stocking. Beautiful new rearing stations which rank with any in the country for modern design and efficient operation have been built at Merrymeeting Lake, New Durham at Summer Brook in Ossipee, and at Merrimack, between Manchester and Nashua. Five other stations at Colebrook, Twin Mountain, Warren, New Hampton, and Richmond have been completely reconditioned.

Fish and game is now recognized as a major factor in the recreation business which is one of New Hampshire's foremost sources of revenue. We can be justly proud of the effective teamwork between department personnel and the sportsmen of the state who are looking forward with the eye of true conservationists to establishing the fish and wildlife species of our state on a secure footing for future years. Deer, grouse, black bear, snowshoe hares, landlocked salmon, togue, black bass, and several species of brook trout are only a few of the wild

residents which are to be found in such plenty as to make sportsmen choose New Hampshire first.

## "COME TO NEW HAMPSHIRE"

New Hampshire believes in progress and development in every direction. It is the third most industrialized state in the Union and prizes itself on the quality and diversification of its products. New Hampshire is the home of the famous breed of poultry known as the "New Hampshires." She invites the whole world to visit her mountains, the "playground of America." Those seeking opportunity for profitable farming will do well to write for further information to the Commissioner of Agriculture, Concord, N. H.; sportsmen are invited to send for literature and advice to the Fish and game Director, Concord, N. H.; those looking for business openings, either in manufacturing enterprises or in the retail field, should correspond with the New Hampshire Planning and Development Commission, Concord, N. H.

The Boston & Maine Railroad Publicity Bureau at Boston, Mass., Storrowton Village, Eastern States Exposition Grounds, West Springfield, Mass., the New Hampshire Manufacturers' Association and the New Hampshire Historical Society, Concord, N. H., are other sources from which information not given in this volume may be secured.

## THE STATE HOUSE

The first discussions regarding the erection of a suitable state capitol building in New Hampshire took place in the year 1814. It was indeed a memorable year. The War of 1812 had come to a close with the signing of the Treaty of Ghent, although the news had not reached America until after our troops under General Jackson had continued fighting into 1815 and won the famous battle of New Orleans.

Other matters attracted state attention. One was the election of a "Republican" governor, William Plumer, who defeated the "Federalists." Another was the Dartmouth College case in which the Governor favored state domination of the College. The legislature considered the proposed new capitol building, but first had to determine in what locality it would be.

The contest was between Concord, Hopkinton, and Salisbury, the last named town having offered seven thousand dollars for the honor. In the end Concord won, and by 1816 final action had been taken to build there.

Considerable expense was saved the town of Concord by the decision to build the Capitol of granite from what are now the Swenson quarries at the north end of the town, and to have the cutting and shaping and facing of the stones done by the inmates of the prison.

A feature of the new and imposing building thus provided was its huge gold-painted wooden eagle, which was raised to the top of the dome in 1818. Appropriate ceremonies presided over by Governor Plumer were marked by a series of toasts, one of which was, "The American Eagle. May the shadow of his wings protect every acre of

our united continent and the lightning of his eye flash terror and defeat through the ranks of our enemies."

The new building's actual cost was only approximately $82,000, but it provided adequate quarters for the legislature and committees, the Governor and Council, the Secretary of State, the Treasurer, and the library. Stuart J. Park, the builder, goes down in history as having done an admirable job, and he has a Concord street to the north of the building. Park Street, named in his honor. The first session of the legislature to be held in the new building was in 1819.

There is no record of discussion of enlargements or expansion of Capitol facilities until 1857. At that time there was pointed out the need for more library space and rooms for new departments. Nothing was done, however, until the problem became acute in one of the Civil War years, 1863, through the offer of the city of Manchester of a sizeable sum to build a new capitol and locate it there. This amount was stated to be no less than half a million dollars.

The legislature having voted to retain the Capitol in Concord, plans were at once made to undertake its enlargement and remodeling. This was begun in 1864 and completed by 1866. The cost was said to have been approximately $200,000.

In 1881, plans having been proposed to gain new space for needs caused by growth in State operations, by the removal of the library to a building of its own, plans for such a building were made. These plans, as ultimately adopted, not only provided for a "State Library," but for the Supreme Court as well, and the building was finally completed in 1895. The Library was later enlarged in 1903.

Not until 1903 was the problem of increasing needs for more space in the conduct of the State's business to come under discussion. In this discussion the point was conclusively made that "the majority of State offices cannot be provided with accommodations and are located in other buildings . . . ." and that this was uneconomical and ought to be corrected.

Acting under a resolution which instructed the Governor and Council to remedy this situation, Governor Bachelder employed a firm of Boston architects to prepare a plan for an extensive enlargement of the Capitol.

The arguments included the danger from fire, the inadequacy of the House and Senate to seat the membership, and the lack of meeting rooms for the legislative committees. This called for what amounted to an entirely new state house at an expense of approximately a million dollars, and by 1909 a bill for such an amount was introduced.

Again the city of Manchester entered the scene, offering the million if the state house might be removed and rebuilt there. The legislature voted again to retain the Capitol in Concord, and an act for the issuance of bonds for the construction required was passed.

Governor Quinby and his Council then employed architects under whose plans the entire building was remodeled precisely as it is today, making the entire building fire-proof in all its parts, providing

electric elevators, modern lighting, vaults, and an up-to-date heating system. During the years following, the proposal of 1903 regarding the necessity of providing for the various departments under one head was again considered, and plans were drawn in 1937 for the present State House Annex.

The corner-stone for this new undertaking was laid in 1938, and the cost at completion, including a considerable grant from the federal government, amounted to $327,000. Here are housed more than twenty of the State's departments in modern, well-equipped offices. The Annex is connected by an underground passageway with the Capitol itself.

Since the building of the Annex, other improvements have been undertaken to keep the State government in step with modern progress. Recently the entire outer surface of the Capitol Building has been expertly sanded and washed, restoring the granite stones to their original clean, fresh appearance.

Likewise the statues of John Stark, Daniel Webster, President Pierce, John P. Hale, and Commodore Perkins have been properly cleaned and made tarnishproof by a modern professional process. Also the gilded wooden eagle, the Capitol Building's long familiar emblem, having been found to be suffering from the effects of many decades of weathering, has been replaced by an element-proof metal replica which now adorns the dome where its gold will glisten in the sunshine of long years to come. These things are among the accomplishments of the administration of Governor Lane Dwinell.

As parts of Massachusetts Bay Colony (1641-3 to 1679) the towns of Hampton, Exeter, Dover, and Strawberry Bank were comprised within Norfolk county, which was one of the four shires, viz., Essex, Middlesex, Suffolk, and Norfolk, into which the Bay Colony was separated from "3d month, 10th day 1643."

The Province of New Hampshire agitated the subject of county establishment for years previous to decisive action in 1769, one plan, which came to nought in 1755, being to make two counties, Portsmouth and Cumberland, with the Merrimack as the dividing line.

The act which passed April 29, 1769, contained the provision that it should not take effect until "his majesty's royal approbation thereof be known," and the further provision that "said counties of Strafford and Grafton shall be for the present annexed to and deemed and taken as parts and members of the County of Rockingham *** until the governor by and with the advice of the council shall declare them respectively sufficient for the exercise of their respective jurisdictions and no longer." Governor John Wentworth, in a message to the house of representatives in March, 1771, said "It gives me great pleasure to inform you that his majesty has been graciously pleased to approve and confirm the act for dividing this Province into counties." The existence of Rockingham, Hillsborough, and Cheshire counties began on March 19, 1771, Strafford and Grafton having received authority to exercise and enjoy county privileges, as set forth in Governor John Wentworth's message to the house on May 28, 1772, their separation from Rockingham became effective on June 5, 1773,

by the terms of the act of February 5, 1773, "fixing the times and places for holding courts in *** Grafton county," four months being allowed for the building of "prisons, court houses," etc.

## Revolutionary Councilors, 1776—84

Article 60 of the second part of the constitution provides for an executive council of five men to advise and act with the governor. Before the constitution there was a council both under the temporary constitution of the Revolution and under the provincial government. Since 1913 councilors have been elected by plurality vote to represent population but previously to that they were elected by majority vote to represent property, and in the colonial days they were appointed.

The following is a complete list of all the councilors since the Revolution giving the name and address of each and the year in which he was elected or appointed.

# THE SENATE

The senate began under the constitution and first met in 1784. There were at first twelve senators who represented the five counties that then existed, five senators from Rockingham county, two from Strafford, two from Hillsborough, two from Cheshire, and one from Grafton. In 1793 senatorial districts were created to take the place of county representation and each district elected one senator. The elections during the early years took place in March and the legislature met in June annually.

The senatorial districting of 1793 was changed over in 1803 and several times subsequently. In 1878 the senate was doubled in size. In 1915 the senators were elected by plurality instead of majority vote. The following is a complete list of the senators from the beginning, showing the name and residence of each member of each senate, arranged in the order of districts from 1793, when the districts were created, and previous to that year, in the order of counties.

# FEDERAL CENSUS

# 1960

## THE UNITED STATES

The United States is composed of fifty states, one district, one commonwealth, and five major non-contiguous territories and possessions.

The republic originated in the rebellion of the British Colonies of North America, Canada excepted, in 1776, and in the Declaration of Independence, the thirteen colonies in revolt styled themselves "The United States of America."

The Canadian boundary line is 3,900 miles in length, the Mexican boundary line being 1,975 miles in length.

According to the 1940 Federal census, the first basic re-measurement of the land and water area of the continental United States since 1880 showed a total area of 3,022,387 square miles, consisting of 2,977,128 square miles land area and 45,259 square miles inland water area. The total area of Alaska, according to this census, is 586,400 square miles and the total area of Hawaii is 6,419 square miles.

The Capitol of the United States is at Washington, D. C. The corner stone of the original building was laid on September 18, 1793 by President George Washington. The original building was finally completed in 1827, its cost, including the grading of grounds, alterations and repairs up to that year, having been $2,433,844.13.

## FEDERAL CENSUS OF 1960

### Number of Inhabitants

**The State.** New Hampshire was one of the Thirteen Original States. Its population on April 1, 1960, according to the Eighteenth Census, was 606,921. The State has a land area of 9,017 square miles. In 1960 there was an average of 67.3 inhabitants per square mile as compared with an average of 59.1 in 1950. Among the States and the District of Columbia, New Hampshire ranked 45th in population and 44th in land area.

In 1790 New Hampshire had a population of 141,885 (Table 1). In 1960, 170 years later, its population was over four times as large. The rate of population growth of the State has been consistently below that for the Nation as a whole. In the twentieth century, the intercensal rates of growth ranged from a low of 2.9 per cent to a record high of 13.8 per cent. In 1900 the population of the State was 411,588, and in 1950 it was 533,242.

**Usual place of residence.** In accordance with census practice dating back to 1790, each person enumerated in the 1960 Census was counted as an inhabitant of his usual place of residence or usual place of abode, which is generally construed to mean the place where he lives and sleeps most of the time. This place is not necessarily the same as his legal residence, voting residence, or domicile; however, in the vast majority of cases, the use of these different bases of classification would produce substantially the same statistics, although there may be appreciable differences for a few areas.

In the application of this rule, persons were not always counted as residents of the places in which they happened to be found by the census enumerators. Persons in the larger hotels, motels, and similar places where guests usually pay for quarters were enumerated on the night of March 31, and those whose usual place of residence was elsewhere were allocated to their homes. In addition, information on persons away from their usual place of residence was obtained from other members of their families, landladies, etc. If an entire family was expected to be away during the whole period of the enumeration, information on it was obtained from neighbors. A matching process was used to eliminate duplicate reports for a person who reported for himself while away from his usual residence and who was also reported at his usual residence by someone else.

Persons in the Armed Forces quartered on military installations were enumerated as residents of the States, counties, and minor civil divisions in which their installations were located. Members of their families were enumerated where they actually resided. As in 1950, college students were considered residents of the communities in which

they were residing while attending college. The crews of vessels of the U. S. Navy and the American Merchant Marine in harbors of the United States were counted as part of the population of the ports in which their vessels were berthed on April 1, 1960. Inmates of institutions, who ordinarily live there for long periods of time, were counted as inhabitants of the place in which the institution was located; whereas patients in general hospitals, who ordinarily remain for short periods of time, were counted at, or allocated to, their homes. Persons without a usual place of residence were counted where they were enumerated.

Americans who were overseas for an extended period (in the Armed Forces, working at civilian jobs, studying in foreign universities, etc.) are not included in the population of any of the States or the District of Columbia. On the other hand, persons temporarily abroad on vacations, business trips, and the like, were enumerated at their usual residences on the basis of information received from members of their families or from neighbors.

**Urban-rural residence.** Data on the population of the State by urban-rural residence are shown for the State in Table 1 and for the counties, or comparable areas, in Table 6.* According to the definition adopted for use in the 1960 Census, the urban population comprises all persons living in (*a*) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin); (*b*) the densely settled urban fringe, whether incorporated or unincorporated, of urbanized areas (see section below); (*c*) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 persons or more per square mile; (*d*) counties in States other than the New England States, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (*e*) unincorporated places of 2,500 inhabitants or more.

This definition of urban is substantially the same as that used in 1950; the major difference between 1950 and 1960 is the designation in 1960 of urban towns in New England and of urban townships in New Jersey and Pennsylvania. The effect on population classification arising from this change was actually less than the list of those places classified as urban under special rules would suggest, because, in 1950, most of the population living in such places was classified as urban by virtue of residence in an urbanized area or in an unincorporated urban place. (See following sections.) In censuses prior to 1950, the urban population comprised all persons living in incorporated places of 2,500 inhabitants or more and areas (usually minor civil divisions) classified as urban under somewhat different special rules relating to population size and density. In all definitions, the population not classified as urban constitutes the rural population. In the tables presenting the population by urban-rural residence, the "current"

*In State reports of the 1960 Census of Population.

urban definition refers to the population classified in accordance with the definitions used in 1950 and 1960. The term "previous" urban definition refers to the definition used prior to 1950.

The most important component of the urban territory in all definitions is the group of incorporated places having 2,500 inhabitants or more. A definition of urban territory restricted to such places, however, excludes a number of equally large and densely settled places merely because they are not incorporated places. Under the definition used previous to 1950, an effort was made to avoid some of the more obvious omissions by the inclusion of selected places which were classified as urban under special rules. Even with these rules, however, many large and closely built-up places were excluded from the urban territory.

To improve its measure of the urban population, the Bureau of the Census adopted, in 1950, the concept of the urbanized area and delineated, in advance of enumeration, boundaries for unincorporated places. All the population residing in urban-fringe areas and in unincorporated places of 2,500 or more is classified as urban according to the "current" definition. The urban towns, townships, and counties as defined for the 1960 Census are somewhat similar in concept to the minor civil divisions classified as urban under special rules in 1940 and 1930.

For the convenience of those interested in the historical trend of the urban and rural population, the 1950 and 1960 population figures are shown on the basis of both the "current" definition and the "previous" definition. Although the Bureau of the Census has employed other definitions of "urban" in prior years, the urban and rural population figures published here as according to the "previous" definition have been revised to present a substantially consistent series.

**Minor civil divisions.** To the primary political divisions into which counties or comparable areas are divided, the Bureau of the Census applies the general term "minor civil divisions." Statistics on the population of each county or comparable area by minor civil divisions appear in Table 7.* Incorporated places which are not themselves minor civil divisions and unincorporated places are shown indented under the minor civil divisions in which they are located. When an incorporated or unincorporated place lies in more than one minor civil division, the population of the several parts is shown in table 7 under the appropriate minor civil division, and each part is designated as "part." The total population of such places appears in table 8. Unincorporated places are designated by "U" and urban towns and townships by "UT." Changes effected between 1950 and 1960 in boundaries of the areas are shown in the notes at the end of Table 7.* Boundary changes occurring between 1940 and 1950 are given in Table 6 of State reports of the 1950 Census of Population.

**Places.** The term "place" as used in reports of the decennial censuses refers to a concentration of population, regardless of the existence

*In State reports of the 1960 Census of Population.

of legally prescribed limits, powers, or functions. Most of the places listed are incorporated as cities, towns, villages, or boroughs, however. In addition, the larger unincorporated places outside the urbanized areas were delineated and those with a population of 1,000 or more are presented in the same manner as incorporated places of equal size. Each unincorporated place possesses a definite nucleus of residences and has its boundaries drawn so as to include, if feasible, all the surrounding closely settled area. Furthermore, unincorporated places are shown within urbanized areas if they have 10,000 inhabitants or more and if there was an expression of local interest in their recognition. The towns in New England and townships in New Jersey and Pennsylvania recognized as urban are also counted as places.

**Incorporated places.** Political units recognized as incorporated places in the reports of the decennial censuses are those which are incorporated as cities, boroughs, towns, and villages with the exception that towns are not recognized as incorporated places in the New England States, New York, and Wisconsin. The towns in these States are minor civil divisions similar to the townships found in other States and not necessarily thickly settled centers of population such as the cities, boroughs, towns, and villages in other States. Similarly, in New Jersey and Pennsylvania, where some townships possess powers and functions similar to those of incorporated places, the townships are not classified as "incorporated places." Thus some minor civil divisions which are "incorporated" in one legal sense of the word are not regarded by the Census Bureau as "incorporated places." Without this restriction all of the towns in the New England States, New York, and Wisconsin and the townships in New Jersey and Pennsylvania would have to be counted as incorporated places without any consideration of the nature of population settlement. A number of towns and townships in these States do qualify, however, as urban towns or townships and in others the densely settled portions are recognized as unincorporated places or as parts of an urban fringe.

**Unincorporated places.** As in the 1950 Census, the Bureau has delineated boundaries for densely settled population centers without corporate limits. All such places of 1,000 inhabitants or more are shown in Tables 7 and 8.* Population data for 1950 are shown only for those unincorporated places which had the same name in both 1950 and 1960. Of course, the boundaries of many such places have changed as the communities have grown.

**Urban places.** The count of urban places in 1960 includes all incorporated and unincorporated places of 2,500 inhabitants or more, and the towns, townships, and counties classified as urban. Under the "previous" urban definition, places of 2,500 or more and the areas urban under special rules were urban places.

**Urbanized areas.** The major objective of the Bureau of the Census

*In State reports of the 1960 Census of Population.

in delineating urbanized areas was to provide a better separation of urban and rural population in the vicinity of the larger cities, but individual urbanized areas have proved to be useful statistical areas. They correspond to what are called "conurbations" in some other countries. An urbanized area contains at least one city of 50,000 inhabitants or more in 1960,[1] as well as the surrounding closely settled incorporated places and unincorporated areas that meet the criteria listed below. All persons residing in an urbanized area are included in the urban population.

It appeared desirable to delineate the urbanized areas in terms of the 1960 Census results rather than prior to the census as was done in 1950. For this purpose a peripheral zone around each 1950 urbanized area and around cities that were presumably approaching a population of 50,000 was recognized. Within the unincorporated parts of this zone small enumeration districts were planned,[2] usually including no more than one square mile of land area and no more than 75 housing units.

Arrangements were made to include within the urbanized area those enumeration districts meeting specified criteria of population density as well as adjacent incorporated places. Since the urbanized area outside of incorporated places was defined in terms of enumeration districts, the boundaries for the most part follow such features as roads, streets, railroads, streams, and other clearly defined lines which may be easily identified by census enumerators in the field and often do not conform to the boundaries of political units.

In addition to its central city or cities, an urbanized area also contains the following types of contiguous areas, which together constitute its urban fringe:

1. Incorporated places with 2,500 inhabitants or more
2. Incorporated places with less than 2,500 inhabitants, provided each has a closely settled area of 100 dwelling units or more
3. Towns in the New England States, townships in New Jersey and Pennsylvania, and counties elsewhere which are classified as urban
4. Enumeration districts in unincorporated territory with a population density of 1,000 inhabitants or more per square mile (The area of large nonresidential tracts devoted to such urban land uses as railroad yards, factories, and cemeteries, was excluded in computing the population density of an enumeration district.)

---

[1] There are a few urbanized areas where there are "twin central cities" that have a combined population of at least 50,000. See the section on "Standard Metropolitan Statistical Areas" in State reports of the 1960 Census of Population for further discussion of twin central cities, neither of which has a population of 50,000 or more.

[2] An enumeration district (ED) is a small area assigned to an enumerator which must be canvassed and reported separately. In most cases an ED contains approximately 250 housing units.

5. Other enumeration districts in unincorporated territory with lower population density provided that they served one of the following purposes:

a. To eliminate enclaves

b. To close indentations in the urbanized area of one mile or less across the open end

c. To link outlying enumeration districts of qualifying density that were no more than 1½ miles from the main body of the urbanized area.

Contiguous urbanized areas with central cities in the same standard metropolitan statistical area are combined. Urbanized areas with central cities in different standard metropolitan statistical areas are not combined, except that a single urbanized area was established in the New York-Northeastern New Jersey Standard Consolidated Area, and in the Chicago-Northwestern Indiana Standard Consolidated Area.

The boundaries of the urbanized areas for 1960 will not conform to those for 1950, partly because of actual changes in land use and density of settlement, and partly because of relatively minor changes in the rules used to define the boundaries. The changes in the rules include the following:

1. The use of enumeration districts to construct the urbanized areas in 1960 resulted in a less precise definition than in 1950 when the limits were selected in the field using individual blocks as the unit of area added. On the other hand, the 1960 procedures produced an urbanized area based on the census results rather than an area defined about a year before the census, as in 1950.

2. Unincorporated territory was included in the 1950 urbanized area if it contained at least 500 dwelling units per square mile, which is somewhat different criterion than the 1,000 persons or more per square mile of the included 1960 unincorporated areas.

3. The 1960 areas include those entire towns in New England, townships in New Jersey and Pennsylvania, and counties that are classified as urban in accordance with the criteria listed in the section on urban-rural residence. The 1950 criteria permitted the exclusion of portions of these particular minor civil divisions.

In general, however, the urbanized areas of 1950 and 1960 are based on essentially the same concept, and the figures for a given urbanized area may be used to measure the population growth of that area.

An urbanized area may be thought of as divided into the central city, or cities, and the remainder of the area, or the urban fringe. Any city in an urbanized area which is a central city of a standard metropolitan statistical area is also a central city of the urbanized area. With but two exceptions, the names of the central cities appear in the titles of

the areas. The central cities of the New York-Northeastern New Jersey Area are the central cities of the New York, Newark, Jersey City, and Paterson-Clifton-Passaic Standard Metropolitan Statistical Areas. Likewise, the central cities of the Chicago-Northwestern Indiana Area are the central cities of the Chicago and Gary-Hammond-East Chicago Standard Metropolitan Statistical Areas.

Data for the entire urbanized area are shown in Table 10 for each State in which a central city of the area is located.* If that part of an urbanized area that extends into another State does not include a central city, data are shown only for that part within the State.

We commend him for his outstanding and devoted leadership of our own nation and the free world and declare our gratitude for his example of dedicated and effective service which will be continuously an inspiration to our own and generations to come. We express our warm wish that the President and Mrs. Eisenhower will find in the rest from their lifelong labors for mankind the long years of good health and happiness which they richly deserve.

### The Vice President

Nixon, Vice President, and candidate of our Party for the Presidency of the United States and Henry Cabot Lodge, candidate of our Party for the Vice Presidency of the United States. We declare our belief that Richard M. Nixon is the only man in the nation fully qualified by actual experience and service who is offered for election to the Presidency in this year 1960.

We further declare our belief that the experience in prior and present public service of Richard M. # DEMOCRATIC ORGANIZATION

**September 23-24, 1960**

### A Two-Party System

We pledge ourselves to a vigorous and sustained effort to create and maintain a genuinely competitive two-party system in the best interests of all the citizens of New Hampshire.

### Agriculture

Because a prosperous agriculture is essential to the welfare of all our citizens, we recommend that the state utilize an agricultural expert to advertise and promote New Hampshire agriculture and its products.

We recommend that more adequate funds be provided for the College of Agriculture and the extension Service of the University of New Hampshire.

We favor the repeal of the tax on livestock and poultry.

We believe that farm land should be taxed only on its productivity.

We favor a stronger poultry bonding law to protect poultry raisers.

We recommend that a greater proportion of highway funds be directed to rural road aid.

We believe that public statutes relating to agriculture and to farm people should be made more explicit. To this end we pledge a thorough review of such legislation.

### Anti-Discrimination

We endorse the following resolution placed before our Platform Conference of 1960:

Whereas the Democratic Party recognizes the inherent right of all people, regardless of race, creed, or color, to enjoy equal status as citizens under the Constitution of the United States and the Constitution of New Hampshire, and

Whereas discriminatory practices have been found in New Hampshire as evidenced by the investigations of the Anti-Discrimination Committee of the 1960 Democratic Party Platform Conference, and as embodied in the United States Civil Rights Commission's report on New Hampshire, and

Whereas New Hampshire is one of the few states in the nation, and the only state in the Northeast that does not have legislation to insure to its citizens enjoyment of these inherent rights, now

Therefore be it resolved that:

The New Hampshire Democratic Party go on record as favoring Anti-Discriminatory legislation and a State Fair Employment Practices Act.

**Economic Development**

We believe that state government has an important part to play in the careful long-range planning that is essential if New Hampshire is to develop fully its economic potentialities.

We favor the transportation program recommended in this platform We place particular emphasis on the orderly completion of our interstate highway system, including a major East-West route across the state.

We extend a vote of confidence to the State Planning and Development Commission for its efforts on behalf of industrial expansion. At the same time we believe further steps must be taken to broaden the base of our economy.

Specifically, we support an increase in the staff of the State Planning Service to encourage more community planning prior to the solicitation of new business and industry.

We favor more research on state resources as an aid in attracting new industry.

We favor a 100% mortgage guarantee plan for new plant construction by state and local development corporations which meet predetermined standards.

We favor the continuation of a long range plan for industrial park development throughout New Hampshire, with gradual expansion of staff and promotion.

We pledge increased emphasis on the importance of our vacation-travel business. Specifically, we recommend that the appropriation for advertising our recreational resources be increased; that liquor and entertainment laws be as liberal as those of other states; and that the state undertake to clean up additional bodies of water so that they may become recreational assets.

We pledge ourselves to examine the high cost of power in New Hampshire. We recommend the creation of a Power Commission whose functions will include a review of laws restricting the use of cheap power in our state.

**Education**

The Democratic Party reaffirms its belief in local supervision of public education. At the same time it believes that our children are

not being given the educational opportunities they require. The following program is supported as a way to remove existing deficiencies without sacrificing local control.

We believe state aid to education should be greatly increased.

We believe that the state should give matching funds to communities for general educational use. These should be based upon each community's maximum effort to maintain state-established standards for teachers' salaries, curricula, and physical plant.

We also support increased construction aid, up to 90% of the cost, for districts that have already achieved maximum consolidation as approved by the Department of Education.

We believe that federal aid to education should be continued and expanded without any slackening on the part of the state in meeting its own responsibilities.

We recommend that city-operated junior colleges be developed through the use of existing school facilities in strategically located communities. We recommend that the industrial and business communities of these localities be surveyed to determine whether they can yield the necessary teaching staffs.

We believe the State Teachers' Colleges should be strengthened and co-ordinated more closely with the University of New Hampshire.

We support efforts by industry and community organizations to establish scholarships for able students.

We recommend that the industrial arts program of the high schools be strengthened and modernized to prepare skilled workers for New Hampshire industry. We also recommend that the two existing state technical schools be strengthened to provide post-secondary education for skilled craftsmen.

We feel that special education for the educable and/or trainable handicapped children should be made mandatory.

We urge financial support to the educational television station in Durham through legislative appropriations.

We believe that minimum standards for elementary schools should be established by the Department of Education.

We endorse the present "Minimum Standards and Recommended Practices for New Hampshire Secondary Schools." We recommend that they be made mandatory by state legislation.

To the extent that our present population cannot support extensive graduate training for law, medicine, and other professional and

specialized fields, we pledge wholehearted support to efforts to provide such training by regional agreements among the New England states.

### Government Reorganization

We favor a thorough reappraisal of the services extended to the people of this state by the various administrative departments.

Any reorganization of functions and departments must fairly protect the tenure of classified state employees and prevent an increase in the number of political appointments.

Reorganization legislation must be enacted constitutionally and meet the fair test and scrutiny of the elected representatives of the people.

We favor bipartisan boards of supervisors of the checklist for every town in the state. To this end we recommend, first, that supervisors of the checklist be elected for three-year staggered terms at the town meeting at which selectmen are elected; second, that no more than two of the three supervisors may belong to the same political party.

We favor a change in the election law to provide a uniform basis throughout the state for the election of county commissioners.

We recommend that not more than one-half plus one of the members of all administrative boards and commissions in New Hampshire be of the same political party.

We favor the immediate enactment of home rule legislation to provide the individual municipalities with authority to operate and control the governmental activities for which they are responsible.

We favor advancing the date of the state primary to June in order to allow enough time to develop party organizations before the general election.

We favor legislation that permits local municipalities to contribute dues voluntarily for the support of a strong and effective New Hampshire Municipal Association.

### Health, Welfare, and Public Institutions

We pledge our support to medical aid programs for our senior citizens.

We favor a systematic review of employment practices that now deprive persons over 65 of gainful work. We also favor a stronger program within the Department of Employment Security to investigate job opportunities for older workers.

We recommend the establishment of a homemaker service program for senior citizens with medical disabilities.

We support the establishment of a housing authority to facilitate the expansion of public housing for the aged, the blind, and the disabled.

We support an active labor-management program to create jobs for blind citizens who have been retrained and fitted for work in private enterprise.

We believe the Department of Health should cooperate with neighboring states to establish diagnostic laboratories and treatment facilities for the control of cancer and other diseases.

We support the expansion of medical facilities in our large urban communities, particularly out-patient clinics, treatment centers, and rehabilitation programs for the chronically ill and handicapped.

We believe that the Tuberculosis Sanatorium at Glencliff should remain open, but that greater efficiency and economy should be practiced in its operation.

We believe that more prompt and efficient procedures should be used in committing patients to the State Hospital.

We urge the elimination of citizenship requirements in public assistance programs. We favor the abolition of settlement laws. Welfare services should be made available by intrastate and interstate agreements.

We recommend more and better foster homes for dependent children. To this end we favor a higher, uniform rate of care for foster homes.

We support an expansion of the facilities of the Laconia State School for mentally retarded children.

We favor the construction of a special reception center for children detained and awaiting disposition by the court, thereby eliminating the need to send them to the State Industrial School.

We recommend additional personnel to expedite the work of the child welfare staff of the Department of Public Welfare.

We favor a thorough survey of the need to create psychiatric treatment facilities for emotionally disturbed children.

We recommend that the Probation Department speed up collection proceedings against parents who are not complying with court orders to support their families.

### Labor

Proposed Labor Platform for 1960 Democratic Platform prepared as a consensus by the committee Secretary after extensive hearings:

We believe in the dignity of labor and the right of individuals to join labor unions for collective bargaining, free from interference, restraint, or coercion from the employer. We believe that a free labor movement is essential to democracy and the free enterprise system.

1. A $1.25 minimum wage for all persons including hotel and restaurant workers and time and a half in excess of forty hours per week and eight hours per day.

2. Compulsory sickness disability insurance with a state fund.

3. Representation on the Public Utilities Commission of a woman with a background in consumer-labor relations.

4. To improve the Workmen's Compensation Law to comply with the recommendations outlined by the Federal Government and to include the following:

   (a) Re-employment rights for injured workers.
   (b) A weekly benefit for injured employees equal to 2/3 of the average wage of the individual at the time of injury.
   (c) The elimination of any ceiling for partially disabled employees.
   (d) Increases in the weekly compensation for widows and children.
   (e) Removal of statute of limitations where proof is available that original accident was covered.
   (f) All evidence being accepted by Labor Commission and any further evidence available should be admissible to Superior Court.

5. A maximum duration of 39 weeks for unemployment compensation.

6. An increase in unemployment compensation benefits with provisions for dependent coverage.

7. The right of all employees in the State to organize and be recognized by their respective employees.

8. A bill of rights for all public employees protecting their right to organize and to secure recognition from the State and its political subdivisions.

9. Abolition of the act prohibiting contributions to political subdivisions.

10. Endorsement of the Federal Forand Bill to provide medical insurance for Social Security recipients.

11. Jury duty compensation should be raised to the level of current average daily wage rates.

12. We re-affirm opposition to enactment of any so called "Right-to-work" laws.

13. Time off with pay where employee might otherwise be deprived of being able to vote.

14. Excusing women from accepting work other than on shift from which they were terminated without loss of unemployment benefits.

15. Re-affirm opposition to a sales tax.

16. A Fair Employment Practices Law with stiff penalties for those discriminating in hiring on grounds of national origin, faith, race or age.

17. Abolition of the "State Hatch Act."

18. To increase budget appropriations for the Labor Department to create efficiency by adding more personnel and equipment.

### Natural Resources

We pledge ourselves to support all conservation programs undertaken by private or public authority to protect and develop the great natural resources of New Hampshire.

We favor larger appropriations, both state and federal, for municipalities and industries with water pollution problems. To avoid undue hardships on any community or industry faced with a depollution order, we urge the creation of a state authority to finance pollution treatment plants which can be leased at reasonable rates.

We favor free public access to all ponds larger than ten acres in area. We recommend an immediate study of the present status of all such ponds.

We believe that more public parks and camping facilities should be provided throughout New Hampshire. We specifically endorse the creation of at least one state park on each of New Hampshire's major lakes; the creation of a park on Lake Winnisquam from a portion of the Laconia State School property; and the adoption of the bi-partisan proposal for state development of the summit of Mount Washington.

We believe that the acquisition and capital development of additional state park land should be financed by legislative appropriations; costs should not be charged to the operating income of the parks.

We believe that New Hampshire should immediately review the need for additional flood control measures. We also believe that areas

reserved for waters impounded in flood control projects should be adapted for other public uses wherever possible.

We favor stricter enforcement of hunting safety laws and increased state support of hunting safety education. Regular license fees should be established to place the Fish and Game Department on a self-supporting basis without the addition of special license stamps.

Since 85% of our land area is in forests, sound forestry practices are paramount. We therefore favor at least one forester in each county.

We recommend immediate state action to control advertising on our scenic highways, including the Interstate Highway System. We urge strict enforcement of laws that prohibit highway littering.

We recommend that supervision of boating on our lakes and streams be transferred from the Public Utilities Commission to the Fish and Game Department. We urge that realistic limits be placed on outboard motor power for each size and type of boat. We also favor stricter enforcement of regulations protecting swimming areas from boats and water skiers.

We favor the resumption of surveys to detect hidden mineral resources.

We believe that tourist information booths should be established on each of the turnpikes entering the state.

### Revenue

We believe that wise and progressive public policy can promote a more rapidly expanding New Hampshire economy, and that continued growth in business, trade, and population can generate much of the additional revenue that is needed for improved state services.

We favor legislation that will authorize the return of a portion of tax revenue to the towns and communities where it was collected, in order that it may be used to promote education.

We recognize that inequities exist in some of our present taxes. The stock-in-trade tax, in particular, has a negative effect on business and industry. We pledge a comprehensive bi-partisan review of our entire tax structure.

We oppose a head tax.

We oppose a sales tax.

### Transportation

We favor the continued development of a state-wide integrated system of airports, navigational aids, and flight services.

Specifically, we urge the development of a major air terminal at a central location with a sufficiently low weather minimum to guarantee dependable air operations to and from New Hampshire.

We also encourage branch line service to supplement air trunk lines, and we recommend more state promotion encouraging citizens to travel by air.

We favor continued efforts to develop Portsmouth Harbor and other harbors along the seacoast.

We recommend further modernization and improved maintenance of our entire road system.

We pledge a campaign to win federal approval for a much needed East-West highway. This artery should be located close to our more heavily populated areas; at the same time it should be laid out to meet essential Civilian Defense requirements.

We recommend that the Highway Department give first preference to local firms in all contracts that do not involve federal aid.

We favor a general easing of restrictions on railroads serving the state. If assistance in tax relief and rate-fixing is necessary to keep adequate rail service, appropriate legislation is in the public interest.
